

DEPT. 2 - BEEF

HEALTH REQUIREMENTS

All animals exhibited at the fair must be free of any contagious, infectious, or communicable disease.

CATTLE AND BISON

Cattle affected with ringworm, warts, mange or scab may not be exhibited, unless the Veterinarian in charge determines the ringworm lesions or warts are inactive and incapable of transmitting the disease. Any cattle found with ringworm, warts, mange or scab that are active, shall be removed from the premises of the fair.

Cattle originating from within Wisconsin - There are no test or health document requirements for Wisconsin cattle. However, fair management is responsible for maintaining records of persons who have exhibited at the fair, the livestock premises code, if any, and the identification of animals shown for 5 years. Acceptable forms of animal identification for breeding animals are (1) an official metal eartag, (2) a breed registration number, (3) a breed registration tattoo or (4) other identification approved by the department. For steers, either an official identification as listed for breeding animals or the eartag applied at weigh-in may be used. Entry blanks submitted and signed by exhibitors, including one of the forms of identification listed above will fulfill the exhibitor requirements.

Cattle originating from outside Wisconsin - A Certificate of Veterinary Inspection shall accompany all cattle documenting animal identification (see above) and all tests or certifications required. Animals must meet normal Wisconsin requirements for interstate movement.

Steers are exempt from any brucellosis test requirement.

Cattle from Brucellosis Certified Free herds in Class A states may enter Wisconsin without a prior brucellosis test if the certified herd number and the last test date appear on the Certificate of Veterinary Inspection.

All cattle originating from Tuberculosis Modified Accredited Advanced states shall have a negative tuberculosis test within 60 days of import. Call the Division of Animal Health for a current listing of these states.

Cattle imported from states not recognizing Wisconsin's Tuberculosis Free status shall be required to have a negative Tuberculosis test for any dairy cattle within 60 days of import. Call the Division of Animal Health for a list of these states or review the department's web site at www.datcp.state.wi.us, Animal welfare & Disease, Importing Animals into Wisconsin

Cattle originating from Tuberculosis Accredited Free herds (except Michigan and Minnesota) may enter without a prior tuberculosis test if the accredited herd number appears on the certificate.

Cattle originating from Modified Accredited states (Michigan and Minnesota) must have a permit number and require special tuberculosis testing. Exhibitors should contact the Division of Animal Health at 608-224-4874, well in advance of the fair or exhibition, to determine their testing requirements. Animals for exhibition from Modified Accredited states are required to return directly to the state origin after exhibition..

Cattle from Canada may be exhibited in Wisconsin if they meet current federal requirements to cross the international border.

GENERAL RULES

- Youth are required to sign up for showmanship & carcass evaluation on entry form to participate**
- Limit of 4 beef or dairy or a combination not to exceed 4 animals total
- Explorers:** Explorers may exhibit one animal in the Showmanship Class and/or appropriate breeding stock class. The Exhibitor must be able to control the animal. It is the responsibility of the exhibitor to follow health requirements and the rules for the department.
- Proof of registration must be presented for all purebred animals. Proof of registration means one of the below:
Registration of animal exhibited
Letter from breed association declaring animal is registered
- Danish judging will be followed
- Barn Stalling.** If large errors concerning space are found in beef entries as compared to animal counts sent in for barn stalling, a club may not be eligible for the Club Herd Award or Herdsmanship Award. Loss of future space may also occur. A representative from each club exhibiting in the beef area is required to attend the stalling night held at the fair grounds.

7. While on the fair grounds all animals must be fitted by the exhibitor, immediate family, another Junior Exhibitor, or a St. Croix 4-H Project Leader. Immediate family is defined as the Exhibitor's parent, brother, sister, step parent, grandparent, or legal guardian. If project member does not abide by the rule, the animal is subject to disqualification and will be ineligible for auction or show per discretion of the St. Croix County 4-H/FFA Meat Animal Committee and/or Breeding Stock Committee.

MARKET BEEF

1. Market classes only. Where there are 8 or more exhibitors for any one breed in the Junior Beef Cattle Class, that class may be judged by the breed, at the discretion of the fair officials.
2. All steers must be polled or de-horned
3. No drugs to be used in animals at the fair
4. Market classes to include beef breeds, crossbred beef, dairy/beef cross, and dairy steers
5. Current Meat Animal Project Rules apply to market animals for auction
6. Market steers will be weighed from **3:30 - 5 pm** entry day of the fair. After weigh-ins the animals will be divided into appropriate classes according to weights determined by fair officials. If 16 or more animals are entered in any weight class, the class may be divided into 2 or more approximately equal lots within a class and each group judged as a class. The top 2 blues from each lot number within a class will compete for champion of that weight class.

CLASSES: A - English Breeds
 B - Exotic Breeds
 C - Crossbred
 D - Dairy Steer
 E - Dairy/Beef Cross

Lot No.	Premiums:	<u>Blue</u>	<u>Red</u>	<u>White</u>	<u>Pink</u>

Reserve Champion Steer - Ribbon
Champion Steer - Ribbon
RESERVE GRAND CHAMPION - Rosette
GRAND CHAMPION - Rosette

BREEDING STOCK

1. Identification forms are required for each animal entered at the fair, including commercial, crossbred, and registered animals at the time of Breeding Stock animal check in.
2. Proof of registration must be presented at the time of check-in for all registered animals. Proof of registration includes one of the follow: Registration of animal exhibited or letter from the breed association declaring the animal is registered.
3. Breeding Stock Check-in time is Thursday at the designated area prior to entering the barn
4. Managerial animals (animals not owned by the Exhibitor) must be established by May 1 and the managerial forms must be turned in to the St. Croix County Breeding Stock Committee before June 1.
5. Crossbred animal – the sire and dam must be two different breeds
6. Commercial animal – the sire and dam must be of the same breed, non-registered.
