

DEPT. 7 - POULTRY

HEALTH REQUIREMENTS

Poultry includes all species of fowl, wild and domestic which includes the Peacock family

All poultry and waterfowl must originate from flocks designated as U.S. Pullorum-Typhoid Clean or NPIP Affiliate flock and accompanied by a NPIP certificate or originate from a Wisconsin Tested Flock or Wisconsin Associate Flock and be accompanied by an enrollment certificate provided by the department certifying that they are a Wisconsin Tested Flock or Wisconsin Associate Flock. Sexually mature birds that do not meet these requirements may qualify with documentation of a negative test for pullorum-typhoid (and *Mycoplasma gallisepticum* for turkeys) conducted within 90 days prior to arrival at the exhibition, and be individually identified with a wing band or leg band. Turkeys that are not going directly to slaughter may not be commingled with other poultry. This may be accomplished by separate housing or controlling the air flow or placement and spacing to prevent movement of *M. gallisepticum* from other poultry to the turkeys. The fair veterinarian should make this decision.

1. All exhibitors are required to check in at the poultry building for a health check and submit the Pullorum-Typhoid free documentation prior to caging any bird on the premises.
2. **Any bird appearing unhealthy or having parasites (mites, fecal worms, etc.) or without correct Pullorum paperwork will be refused entry. Any birds exhibiting signs of ill health during the fair will be removed and disqualified.**

3. All poultry (includes waterfowl) must demonstrate one of the following:
 - Originate from flocks designated as U.S.Pullorum-Typhoid Clean or NPIP Affiliate flock and accompanied by an NPIP certificate. Request an originating flock pullorum free certification document when purchasing chicks.
 - Originate from a Wisconsin Tested Flock or Wisconsin Associate Flock and be accompanied by the corresponding enrollment certificate for the current year.
 - Be accompanied by documentation from a Wisconsin Certified Tester indicating each individual mature bird, identified with a band or tag, has been tested and found negative for pullorum-typhoid (and Mycoplasma Gallisepticum for turkeys) within the last 90 days.
4. Turkeys now require a blood draw sent to the Barron or other qualified lab to be tested for both Pullorum and M. Gallisepticum. The draw should be done by a Wisconsin Certified Tester. Results take 2 weeks. There is a lab charge involved.
5. Immature birds cannot be tested and must originate from a tested flock. **All testing and documentation must be completed before entry day.** If you have questions or need testing, contact one of the following people:
 - Bonnie Walters, 715-772-3344 or bonnie.s.walters@uwrf.edu
 - Heather Landin, 715-684-4026 or hvlandin@mmm.com
 - Rachel Ackley, 715-688-6197 or brjta@baldwin-telecom.net

GENERAL RULES

1. **Check in will be available from 11 am to 7:30 pm on fair entry day**
2. All entries must be made in the name of the actual owner or owner's immediate family and exhibits must be raised by the exhibitor.
3. Exhibitors are allowed only one entry per lot.
4. Exhibitors are allowed to exhibit no more than 10 total poultry entries. A market chicken entry is 2 birds – see lot description.
5. **New this year** – lots for older chickens and turkeys and a “Bred & Owned” class have been added.
6. **Judging will begin at 9:00 am on Saturday**
 - Ribbons will be awarded according to the Danish System
 - No premiums will be paid on disqualified exhibits
7. Exhibitor responsibilities:
 - The fair will exercise all reasonable vigilance in the care of exhibits and police arrangements of the building, but all specimens must be entered at the owner's risk
 - Exhibitors are responsible for feeding and watering their own birds and supplying containers for doing so. Cages and bedding are supplied by the fair.
 - All exhibitors will be required to participate in barn duty in order to receive premiums. Exhibitors are required to help with either setting up the barn prior to fair, supervising the poultry exhibit, or helping with teardown and cleanup following the fair. All exhibitors will be notified of the barn duty schedule prior to fair. Check the 4-H webpage in the poultry section or with the contacts listed above if you do not receive notification.
 - All birds are released for pickup at 4 pm on the last day of the fair and must be picked up by 7 pm on that day. Poultry may not remain past that deadline, as the cages will be taken down.
8. **Explorers** may exhibit in Showmanship ONLY

Premiums for Classes A - I: Blue \$2.00 Red \$1.75 White \$1.50 Pink \$1.25

RESERVE GRAND CHAMPION (Classes E - I)
GRAND CHAMPION (Classes E – I)

CLASS J – BRED AND OWNED POULTRY (Non-Premium)

This class is for any bird also entered in one of the other classes that was bred (exhibitor owned and selected parents) and hatched (either naturally or artificially) by the exhibitor. All breeds and species will be judged together for general quality of the bird and presentation of the bird including ability to discuss selection of parent stock by breed standard or utility purpose as applicable. We would like to encourage our exhibitors to take the next step in poultry management and learn to breed their own birds. If this class grows, it will be split in the future.

Lot No.
